All the members of the Institutional Innovational Council along with many other faculties, staffs and students of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex had also participated in the Day 2 of E-Symposium which was streamed live through the YouTbe Channel.

The Day 2 of the Symposium started with the Keynote Address by Prof. K VijayRaghavan, PSA, Govt. of India. The session then continued with the exclusive Panel Discussions where some really thought-provoking topics were discussed by the reputed founders, COO's and other organizational members of the famous start-up's. It was a great moment for the fifth Panel Discussion, where the discussions gave exposure to the practical problems of creating an Entrepreneurial environment in the school and college campuses. It was really good to see a student of Class 11, sharing her thoughts on Innovations and how to build that Eco-System.

The session was really insightful as our faculties, staffs and students really enjoyed the session. It was also really encouraging for all of us to understand the different facets where we still need to work on to develop the Innovation Eco-System in our campus. The reporting along with the snapshots of the E-Symposium was also shared in our Institutional Facebook page through the link: <https://www.facebook.com/SurTechCollege/posts/2743163905979788>
