

Field/Exposure Visit to Pre-incubation units such as Bureau of Indian Standards Laboratory

The students of Dr. Sudhir Chandra Sur Institute of Technology had organized a Physical Industrial Visit at the Laboratory of Bureau of Indian Standards on 21st December, 2021 for exposure and problem identification in the **standardization, marking and quality certification of goods and for matters connected therewith or incidental thereto sectors.**

In the beginning, the students were given a hearty welcome and were updated on the various engineering facilities and domain of service present in the laboratory through a PowerPoint presentation. Gradually the staff of the respective departments guided the students to their 4 laboratories, RAL (Gold purification testing), Food Technology, Material Strength Technology (UTM lab), Hardness Testing Lab, and explained the process of standardization of various materials

.More than 35 students had joined this visit at the BIS. The session was really needful as the Industrial practices along with the Industrial standards were discussed briefly to the students and by this visit they were able to understand the problems that still exists in the Standardization, Marking Sector and Quality Certification of Goods that are produced in the Industries.
