

National Technology Day  
Celebration Activity  
Quarter III

**Objective**

To celebrate the Technology Day by understanding new technologies.

**Outcome**

The students understood how the emerging technologies are reshaping Computational Industries.

The Institutions Innovation Council along with the Department of Department of Computer Science and Engineering of Dr Sudhir Chandra Sur Institute of Technology and Sports complex organised a workshop session 11<sup>th</sup> May, 2023 on Php with Wordpress and Laravel. Laravel is an open-source MVC framework, itself based on the PHP-based Symfony framework. With Laravel, you'll get a modular packaging system with a full-featured dependency manager and plenty of data access, deployment, testing, and other management tools. Students are introduced with the basics of

- Routing
- Controllers
- Middleware
- Forms and Requests
- Blade templates
- Response
